

Candidate Endorsement Application & Questionnaire for 2024: Environment and Climate Caucus of the Washington State Democratic Party

The Environment and Climate Caucus (ECC) was founded in 2017. We work with a diverse community of stakeholders including the Washington State Democratic Party Central Committee and its associated caucuses.

The ECC grants endorsements to those candidates running for statewide, congressional, and legislative offices, who have demonstrated through experience and commitment, their support of ECC's mission to advocate for legislation and policy that protects the environment and supports effective responses to mitigate and adapt to climate change.

We are delighted that you are seeking ECC's endorsement. Please complete the questionnaire below online or provide to the email address provided below. In fairness to other applicants - incomplete or non-compliant applications, and late submissions, will not be considered.

Your responses will be shared with the ECC voting members who will review your questionnaire and the information provided on your campaign website, social media, and/or literature, with regard to meeting the ECC's stated mission.

If you are endorsed by the ECC during the Primary Election and proceed to the General, the endorsement will stand for the General. Endorsements are for the term of office designated by election.

The respondent's email (campaign@clydeshavers.com) was recorded on submission of this form.

ECC Voting and Results:

Voting occurs electronically among eligible ECC members. The Voting Period takes place over one week following the due date for submission in each election. Results will be announced to those candidates who have received endorsement at the completion of the Voting Period.

Endorsement Rules:

The endorsement process will be according to the ECC's standing 2024 Endorsement Rules (<https://eccwa.org/wp/wp-content/uploads/2024/04/ECC-Endorsement-Rules-2024.pdf>).

Term of office *

2 years

Campaign manager contact information (name, email, phone number) *

Not hired yet

Campaign consultant contact information (name, email, phone number) *

CN4, Dean Nielsen

Essay questions

Please note word limits, and don't forget to answer all questions. Incomplete questionnaires cannot be considered.

Why are you running for this position? What in your background has led you to run? (Not to exceed 150 words) *

I want to thank you for giving me the opportunity to serve. For two years as state representative, I worked as hard as possible each and every day to fight for you.

In a time of political hostility and divisiveness, I've tried my absolute hardest to move forward with kindness and caring. And after reflecting on our combined stories and struggles, I'm hopeful about our future. Our country is great because of you – your resilience to endure and grow together, your compassion towards helping people whom you may never meet, and your unwavering belief in our democracy.

My goal has been and will always be simple – to give my absolute everything to public service. Serving in the legislature has been one of the most challenging endeavors, but also one of the most meaningful – and I'm honored to have gone on this adventure with you.

Together, we accomplished so much – but there's more work to be done for all of us. I hope to continue my life-long dedication to public service – to serve you.

Please limit your answers to the next five questions to 1000 words total

Please explain how your campaign will address donations from utilities, fossil fuel companies, and corporate PACs? *

Will not accept contributions from tobacco, oil/natural gas

What are your most significant accomplishments either as an individual, member of a group, or elected official on environment and climate change? *

Introduced and passed HB 1924 - fusion technology in our clean energy plan. Advocated for green hydrogen federal hub grant. Voted on numerous, numerous environmental bills

Briefly list organizations, events, rallies, canvassing, referendums, petitions, or policies and legislation you have engaged in to advocate for environmental protections. *

Studied environmental law with the Natural Resources Defense Council at Yale Law School

If elected or re-elected what specific environment, climate change, biodiversity, transportation, building and land use, growth management, and/or environmental justice legislation will you prioritize and champion? *

Looking forward to working hard on passing our legislation that provides a tax credit for farmers in conservation programs (i.e. using sustainable, regenerative agricultural practices).

Washington State law sets a target of 90.5 million metric tons (MMT) carbon pollution by 2020, but greenhouse gas emissions rose last year to 102 MMT (Department of Ecology). The state is not on-track. For state office positions, what action will you take to accelerate efforts towards Washington State's 2030 Climate goals, specifically a 45% reduction of carbon pollution below 1990 levels?

Work on ensuring we lead in fusion technology and green hydrogen.
