

Candidate Endorsement Application & Questionnaire for 2024: Environment and Climate Caucus of the Washington State Democratic Party

The Environment and Climate Caucus (ECC) was founded in 2017. We work with a diverse community of stakeholders including the Washington State Democratic Party Central Committee and its associated caucuses.

The ECC grants endorsements to those candidates running for statewide, congressional, and legislative offices, who have demonstrated through experience and commitment, their support of ECC's mission to advocate for legislation and policy that protects the environment and supports effective responses to mitigate and adapt to climate change.

We are delighted that you are seeking ECC's endorsement. Please complete the questionnaire below online or provide to the email address provided below. In fairness to other applicants - incomplete or non-compliant applications, and late submissions, will not be considered.

Your responses will be shared with the ECC voting members who will review your questionnaire and the information provided on your campaign website, social media, and/or literature, with regard to meeting the ECC's stated mission.

If you are endorsed by the ECC during the Primary Election and proceed to the General, the endorsement will stand for the General. Endorsements are for the term of office designated by election.

The respondent's email (electlillianortizself@gmail.com) was recorded on submission of this form.

ECC Voting and Results:

Voting occurs electronically among eligible ECC members. The Voting Period takes place over one week following the due date for submission in each election. Results will be announced to those candidates who have received endorsement at the completion of the Voting Period.

Endorsement Rules:

The endorsement process will be according to the ECC's standing 2024 Endorsement Rules (<https://eccwa.org/wp/wp-content/uploads/2024/04/ECC-Endorsement-Rules-2024.pdf>).

Essay questions

Please note word limits, and don't forget to answer all questions. Incomplete questionnaires cannot be considered.

Why are you running for this position? What in your background has led you to run? (Not to exceed 150 words) *

I ran to fight for social justice and equity for all, to ensure access and fairness for all communities. After years in human services, and as an educator my families and students stories compells me to do more, to keep fighting for equitable outcomes for every resident in the state of Washington.

Please limit your answers to the next five questions to 1000 words total

Please explain how your campaign will address donations from utilities, fossil fuel companies, and corporate PACs? *

I am very particular about whom i receive donations from and my list of donors will speak to that.

What are your most significant accomplishments either as an individual, member of a group, or elected official on environment and climate change? *

I am very proud of the fact that I have a 100% voting record on bills that support our environment and climate change, such as Legislation that protects our water, utilizes clean energy, reduces plastic use, etc. As a part of leadership I continue to advocate for environmental protection legislation.

Briefly list organizations, events, rallies, canvassing, referendums, petitions, or policies and legislation you have engaged in to advocate for environmental protections. *

Throughout the years I have been supported by Washington Conservation Voters etc. but for me the biggest struggle was for the climate committment act. It was quite a struggle to pass and now unfortunately it is threaten again through the initiative so the fight continues.

If elected or re-elected what specific environment, climate change, biodiversity, transportation, building and land use, growth management, and/or environmental justice legislation will you prioritize and champion? *

I do not have a particular bill in mind. However, i have no doubt that we have a great environment chair and committee. As they recommend bills for legislation including those that did not pass last year, I will fight to support and advance those bills. In addition, I am willing to sponsor and/or co-sponsor legislation that may be appropriate for me to do so.

Washington State law sets a target of 90.5 million metric tons (MMT) carbon pollution by 2020, but greenhouse gas emissions rose last year to 102 MMT (Department of Ecology). The state is not on-track. For state office positions, what action will you take to accelerate efforts towards Washington State's 2030 Climate goals, specifically a 45% reduction of carbon pollution below 1990 levels?

In all my roles, I intend to advoate, sponsor or co sponsor and vote for legislation that helps our state get back on track.
