

Candidate Endorsement Application & Questionnaire for 2024: Environment and Climate Caucus of the Washington State Democratic Party

The Environment and Climate Caucus (ECC) was founded in 2017. We work with a diverse community of stakeholders including the Washington State Democratic Party Central Committee and its associated caucuses.

The ECC grants endorsements to those candidates running for statewide, congressional, and legislative offices, who have demonstrated through experience and commitment, their support of ECC's mission to advocate for legislation and policy that protects the environment and supports effective responses to mitigate and adapt to climate change.

We are delighted that you are seeking ECC's endorsement. Please complete the questionnaire below online or provide to the email address provided below. In fairness to other applicants - incomplete or non-compliant applications, and late submissions, will not be considered.

Your responses will be shared with the ECC voting members who will review your questionnaire and the information provided on your campaign website, social media, and/or literature, with regard to meeting the ECC's stated mission.

If you are endorsed by the ECC during the Primary Election and proceed to the General, the endorsement will stand for the General. Endorsements are for the term of office designated by election.

The respondent's email (peopleformia@gmail.com) was recorded on submission of this form.

ECC Voting and Results:

Voting occurs electronically among eligible ECC members. The Voting Period takes place over one week following the due date for submission in each election. Results will be announced to those candidates who have received endorsement at the completion of the Voting Period.

Endorsement Rules:

The endorsement process will be according to the ECC's standing 2024 Endorsement Rules (<https://eccwa.org/wp/wp-content/uploads/2024/04/ECC-Endorsement-Rules-2024.pdf>).

Term of office *

2 years ▼

Campaign manager contact information (name, email, phone number) *

N/A

Campaign consultant contact information (name, email, phone number) *

Winpower Strategies.

Essay questions

Please note word limits, and don't forget to answer all questions. Incomplete questionnaires cannot be considered.

Why are you running for this position? What in your background has led you to run? (Not to exceed 150 words) *

I'm running for re-election to continue the work on more inclusionary budgeting practices and to pass policy bills that I have been working on for several sessions. One of them is Right to Repair.

Please limit your answers to the next five questions to 1000 words total

Please explain how your campaign will address donations from utilities, fossil fuel companies, and corporate PACs? *

I will select the donations I receive carefully. I am not currently asking for campaign donations or endorsements by these companies.

What are your most significant accomplishments either as an individual, member of a group, or elected official on environment and climate change? *

I passed legislation that would update and fund clean up efforts regarding Fossil Fuels. I worked on the states first attempt at banning single-use plastic. As a budget writer I work closely with agencies and Rep. Fitzgibbon on investments related to EJ and the CCA.

Briefly list organizations, events, rallies, canvassing, referendums, petitions, or policies and legislation you have engaged in to advocate for environmental protections. *

Zero Waste Washington, Sierra Club, WCV, SiX, Earth Justice Coalition, WA PIRG, US PIRG and more.

If elected or re-elected what specific environment, climate change, biodiversity, transportation, building and land use, growth management, and/or environmental justice legislation will you prioritize and champion? *

I will continue to work on the States policy related to Right to Repair (Wheelchairs and Electronic Products) and Repairability scores for electronic products. I will continue to fight for land use policy that will build more dense and affordable housing. I will continue to serve on the Food Policy Forum and prioritize climate related priorities and investments in biodiversity and soil health investments.

Washington State law sets a target of 90.5 million metric tons (MMT) carbon pollution by 2020, but greenhouse gas emissions rose last year to 102 MMT (Department of Ecology). The state is not on-track. For state office positions, what action will you take to accelerate efforts towards Washington State's 2030 Climate goals, specifically a 45% reduction of carbon pollution below 1990 levels?

I will fight to defeat the horrible initiative to repeal the CCA. I will use the budget to make good targeted investments that will reduce our carbon footprint while also supporting EJ outreach and investments in Overburdened communities.
