<b>Term of office</b>	2 years
<b>Campaign manager contact information (name, email, phone number)</b>	Brianna Willis, willib294@gmail.com, 404-387-4172
<b>Campaign consultant contact information (name, email, phone number)</b>	Jessica Gavre, jessica@argo.us, 253-223-2314 or Kaden, Kaden@argo.us, 253-569-0948
<b>Why are you running for this position? What in your background has led you to run? (Not to exceed 150 words)</b>	The 25th Legislative District deserves a representative who will tirelessly work and fight for the needs and values of its residents. I am inspired by the opportunity to bring positive change, address pressing issues, and ensure that the voices of our community are heard and represented in the Washington State Legislature. My commitment to service, combined with my military service and background in workforce and economic development, and dedication to our district, drives me to seek this position and advocate for our shared future.
<b>Please explain how your campaign will address donations from utilities, fossil fuel companies, and corporate PACs?</b>	My campaign does not and has not taken money from utilities, fossil fuels companies, and corporate PACs

**What are your most significant accomplishments either as an individual, member of a group, or elected official on environment and climate change?**

As a candidate I have worked to understand how I can effect change by working alongside our conservation district and Washington Conservation Action to address environmental and climate change issues such as the Climate Commitment Act and the push to educate and inform community members of its positive impact. My contribution thus far has been to educate and inform.

**Briefly list organizations, events, rallies, canvassing, referendums, petitions, or policies and legislation you have engaged in to advocate for environmental protections.**

Professionally in workforce development I have been apart of introducing green and blue job initiatives in partnership with the Pierce County Labor Council and Maritime partners at the port to discuss the impact and importance that these jobs will have on improving our workforce and environment. I am engaged in collective impact activity that will ensure our sustainability over time.

**If elected or re-elected what specific environment, climate change, biodiversity, transportation, building and land use, growth management, and/or environmental justice legislation will you prioritize and champion?**

I would ensure to continue championing the Climate Commitment Act, Clean Fuel Standard and Clean Buildings Performance Standards are a few that I will prioritize to ensure Washington's commitment to a sustainable future.

**Washington State law sets a target of 90.5 million metric tons (MMT) carbon pollution by 2020, but greenhouse gas emissions rose last year to 102 MMT (Department of Ecology). The state is not on-track. For state office positions, what action will you take to accelerate efforts towards Washington State's 2030 Climate goals, specifically a 45% reduction of carbon pollution below 1990 levels?**

Yes, I will work in partnership to ensure Washington State meets its 2030 climate goals and sets an example for other states to follow.
